SOFTWARE TOOLS

- Figma
- Adobe Illustrator
- Visual Studio Code
- Auto CAD

TECHNICAL SKILLS

- Programming: Python, Java, C
- Database: SQL, MYSQL
- Visualization: PowerBI, Excel
- Web Development: HTML, CSS, JS, PHP

LANGUAGES

- English (Fluent)
- Japanese (Basics)
- German (Basics)

PROFILE

As a entry programmer, I am intense about learning, working new projects and to develop my skills into technical solutions.Looking to start the career as an entry-level software engineer with a reputed firm driven by technology.

CAREER OBJECTIVE

To become a successful in the field of programming by channelizing my technical skills to ensure my personal and professional growth and to contribute the prosperity of the organization.

B.TECH in Artificial Intelligence and Data Science 2023 - CURRENT

K S Rangasamy College of technology KSR Kalvi Nagar, Tiruchengode, Namakkal, Tamil Nadu 637215

HSC 2022 - 2023

Shri VidhyaBharathi Educational Institutions, Sakkarampalayam, Agaram(Po), Elachipalayam, Tiruchengode ,Namakkal, TamilNadu-637202

SSLC 2020 - 2021

Vishnu Vidhalaya Matric School Ettimadai Rd, Seetharampalayam, Tiruchengode, Tamil Nadu 637209

PROJECTS

Cricket Ticket Booking Console:

- Created a cricket ticket booking console with features like login, register, menu.
- Users can book cricket match tickets by selecting seats according to their preference through a console-base interface.
- Made using Turbo C,Code::Blocks.

Hotel Management System:

- Built a system to manage customer data like booking, Room Types, Payments.
- Helps admins to update and access records easily.
- Made using Java Programming.

E-Commerce Analysis:

- It is designed to analyze and classify products, as well as maintain, update, and access records.
- Basically a Dashboard for Sellers in an e-commerce platforms.
- Made using Excel, DAX, Power BI.

Online Banquet Booking System(OBBS):

- The platform eliminates the need for manual booking records by providing a Centralized interface for users to login/register, and make service bookings online.
- Admin panel allows authorized personnal to manage all bookings, service categories, event types, user queries, and generate date-wise reports.
- Additionally Admin can approve, update or cancel bookings through secure backend interface.
- OBBS is a web-based Application Developed using HTML,CSS,JavaScript,PHP, and MySql.

CERTIFICATIONS

Completed Online Courses offered by NPTEL

- The Joy of Computing Using Python
- Data Analytics with Python
- English language For Competitive Exams

Completed Online Courses offered by infosys|Springboard

Design & Mindset - 2
- The Fundamentals of User Experience – A Process for Problem Solving
- Building an Agile Mindset

Programming Foundations - 2
- Start Programming in Core Java
- Basics of Python

Artificial Intelligence / NLP - 1
- Deep Learning for NLP: Introduction

Game Development - 1
- UNITY – Introduction to Unity Game Development

Java Database Connectivity (JDBC) Projects - 2
- JDBC Case Study – Employee Management System
- JDBC Case Study – Inventory Management System

Completed Online Courses offered by Mangodb

Beginner / Onboarding Modules - 2
- Introduction to MongoDB (For Students)
- Getting Started with MongoDB Atlas

Core Concepts - 3
- MongoDB and the Document Model
- Connecting to a MongoDB Database
- MongoDB Data Modeling Intro

CRUD Operations & Queries - 2
- MongoDB CRUD Operations: Insert, Find, Replace, Delete Documents
- MongoDB CRUD Operations: Modifying Query Results

Advanced Data Handling - 4
- MongoDB Aggregation
- MongoDB Indexes
- MongoDB Atlas Search
- MongoDB Transactions

Completed Online Courses offered by Matlab

Onramps (Introductory Courses) - 6
- Machine Learning Onramp
- Deep Learning Onramp
- Statistics Onramp
- Curve Fitting Onramp
- Computer Vision Onramp
- Reinforcement Learning Onramp

Machine Learning Modules - 5
- Machine Learning with MATLAB
- Classification Methods with Machine Learning
- Cluster Analysis with Machine Learning
- Regression Methods with Machine Learning
- Dimensionality Reduction Techniques

Deep Learning Modules - 5
- Deep Learning with MATLAB
- Regression with Deep Learning
- Object Detection with Deep Learning
- Tune Deep Learning Training Options
- Explore Convolutional Neural Networks
